PROFILE

Motivated developer with a strong foundation in programming principles. Skilled in Java, C++, SQL, HTML and CSS. Passionate about creating efficient and reliable applications. Strong problem-solving and teamwork abilities. Eager to contribute to software development projects.

Eager to contribute my skills and experience to impactful software development projects, I am enthusiastic about the opportunity to leverage emerging technologies and industry best practices to drive business success and make a positive impact on end users.

EXPERIENCE

I am a dedicated and enthusiastic individual with a strong foundation in programming languages and web development technologies. Through completing several courses on Coursera, I have acquired comprehensive knowledge and practical skills in Java, SQL, C++, Python, HTML, and CSS. These courses have equipped me with the expertise necessary to excel in various aspects of software development, database management.

My proficiency in Java, C++, and Python enables me to develop robust and efficient applications, utilizing object-oriented programming principles and algorithms to solve complex problems. Additionally, I have gained hands-on experience in database design and management through SQL courses, allowing me to design and optimize databases for effective data storage and retrieval.
